Aurora, Colorado

Mr. Weisberg:

I am a student at Metropolitan State College in Denver, Colorado, majoring in history.

Presently I am enrolled in a course titled Political Assassinations. Although we are studying the other recent assassinations and attempts in United States history, the bulk of our time will be spent on the President Kennedy assassination.

I was already intrested in the John F. Kennedy assassination prior to signing up for the course and have read quite extensively on the subject. But I have never read or even seen the books you have written although they come highly recommended by many people, to me. I would consider it a great asset to be able to read and own copys of the books you have written on the John F. Kennedy assassination.

Below I have listed the books I would like to receive, if there is any costs necessary to receive to books, please inform me and I will be willing to pay them.

1. WHITE WASH I, II, III, IV
2. POST MORTEM: JFK ASSASSINATION COVER UP SMASHED

Thank you, your help will be greatly appreciated,

Brian M. Morrell
